We had a team of three affiliate managers, but the affiliate manager we got from KeyPoint was way better than what we had, upon the first we got 5 new leads for the traffic sources and one of them was one of the best we had, he managed to close with a leading site in the industry.

We needed someone who knows all the right networks, and what works and what does not work, and we got exactly what we needed. He started sending us leads and one of them appears to be one of the leading networks in the field. We managed to close with them very good deal, very recommended.

Ebook

We look for someone who knows where is the right sources of traffic, and it took less than a month to get results. Keypoint affiliate managed to find one of the largest e-book sites through LinkedIn and get his contact details. After that it took couple of week to get the ebook uploaded to the website and generate a constant stream of revenues.
